CS338  Computer Science III  3 credits

Lecturer: Guangming Xing
Office: TCCW 126B, x5-8848, Guangming.Xing@wku.edu
URL: http://www.wku.edu/~Guangming.Xing/wku/cs338
Office Hours: TR: 11:00 – 12:30, 13:00 – 14:00
W: 10:00 – 12:00 13:00 – 14:00

Reference Text Books

Object-Oriented Data Structures Using Java by Nell Dale, Chip Weems, Daniel T. Joyce,
ISBN: 0763710792 (Jones and Bartlett Publisher)

Grading:
Test I and II: 200
Final: 250
Programs: 200
Homework: 150

Grading Scale:
900 – 1000 A
800 – 899 B
700 – 799 C
600 – 699 D
below 600 F

Exam dates:
Test I September 28, 2004
Test II November 14, 2004
Final: refer *

Course Description:
This course will give more instruction, experience in Java programming. Also more in-depth knowledge of data structures and discrete structures that are used quite often in Computer Science.

You will find that we will focus less on syntax issues in Java programming, instead converting an idea to a program is more important in our course.
**Required Materials:**

1. Large envelope (8.5" x 11") to hand in assignments.
2. At least two 3.5" floppy disks DS/HD

**Course Policy:**

1. Class attendance is required. 3 or more absences without documented excuse will result in a your letter grade lowered by 1 (that is from A to B, B to C …).

2. No late work will be accepted unless with previous permission from the Instructor.

3. Students must attend the class regularly and on time. If a student is late, he/she should enter the classroom quietly without disturbing others or disrupting the class. If you are late twice, it will be counted for one absence.

4. If the instructor is late, the students must remain in the class orderly working (studying) until the instructor arrive or until the class is dismissed officially by a person of authority.

5. No food or drink is permitted in the classroom.

6. No mobile phone usage in the classroom. Phones should be on OFF position when you enter the classroom.

7. The students are responsible for turning in the homework and attend the exams on time even he/she misses a class. If you can’t attend the exam, you must get permission from the instructor first, AND you must have documented excuse.

8. Homework and project must be done by individual effort. Plagiarism and other forms of academic dishonesty will be handled within the guidelines of the Student Handbook. The usual penalty for academic dishonesty is loss of credit for the assignment in question; however, stronger measures may be taken when conditions warrant.
