Office Hours:           M, F – 1:35 – 3:00  
                              T, R – 12:30 – 2:00  
                              Others by appointment or capture.

Prerequisites: Four years of high school mathematics, including Algebra II, geometry, and trigonometry, and satisfactory score on Math Placement Exam; or MATH 117 or MATH 118, with grade of C or better.

Welcome to calculus! I hope that you are as excited about this course as I am. Calculus provides basic preparation for numerous fields in science and business. It is incredibly applicable.

There will be four tests and a comprehensive final. Homework will be assigned daily and occasionally taken up without warning.

Students with disabilities who require accommodations (academic adjustments and/or auxiliary aids or services) for this course must contact the Office for Student Disability Services, DUC A-200. Do not request accommodations directly from the professor or instructor without a letter of accommodation from the Office for Student Disability Services.

Your grade will be determined as follows:

Homework	20%
Tests (4)	60%
Final	20%

Keep up! Do your homework and please make use of my office hours. That time is yours not mine! If I did not enjoy talking to students, I would not teach. Make-ups for tests will be determined on a case by case basis. Any test with the exception of the final may be taken early if I am contacted in time.

Exam I	Thursday, Feb. 11
Exam II	Thursday, March 4
Exam III	Thursday, April 1
Exam IV	Thursday, April 22
Final	Thursday May 13, 10:30 – 12:30

Calculus Syllabus  
Math 126

Single Variable Calculus, Early Transcendentals, by Jon Rogawski, Freeman 2008.

	<b>Days</b>
Chapter 1	5
Chapter 2	7
Chapter 3	13
Chapter 4	10
Chapter 5	7
Chapter 6 (Only Section 6.1 - 6.2, 6.3 optional)	4
Tests	4
Total	50

There are about 54 days in the semester; this schedule allows the instructor to spend additional time on selected topics from the text or other sources.
