

PSY 445 Vita Assignment

Fall 2023

For this assignment, you will create a professional vita. Use the lecture on curriculum vitae and the vitae on the website as a guide and create a vita that accurately reflects your experiences/credentials. Remember, this is a professional document, so you should strive to have it appear as such. Be sure to include all of the categories listed below, even if there is nothing in them (that way, I know you do not have the experiences rather than forgetting the category). You may include more categories that are appropriate, if you want.

1. Introduction
 - a. Education
 - b. Awards
 - c. Clinical/Research Interests
2. Research Experience
 - a. Publications
 - b. Presentations
3. Clinical Experience
4. Teaching Experience
5. Other Related Experience
6. (Optional) Skills

Focus on having proper formatting, including, but not limited to, professional font and presentation, APA style when appropriate, listing activities in reverse chronological order, and having appropriate margins. The assignment will be due on **Monday, October 2, 2023**, at the beginning of class. It will be worth 30 points.
